These fun Arabic Alphabet Puzzles will help your little learner become familiar with the shape and form of each letter.

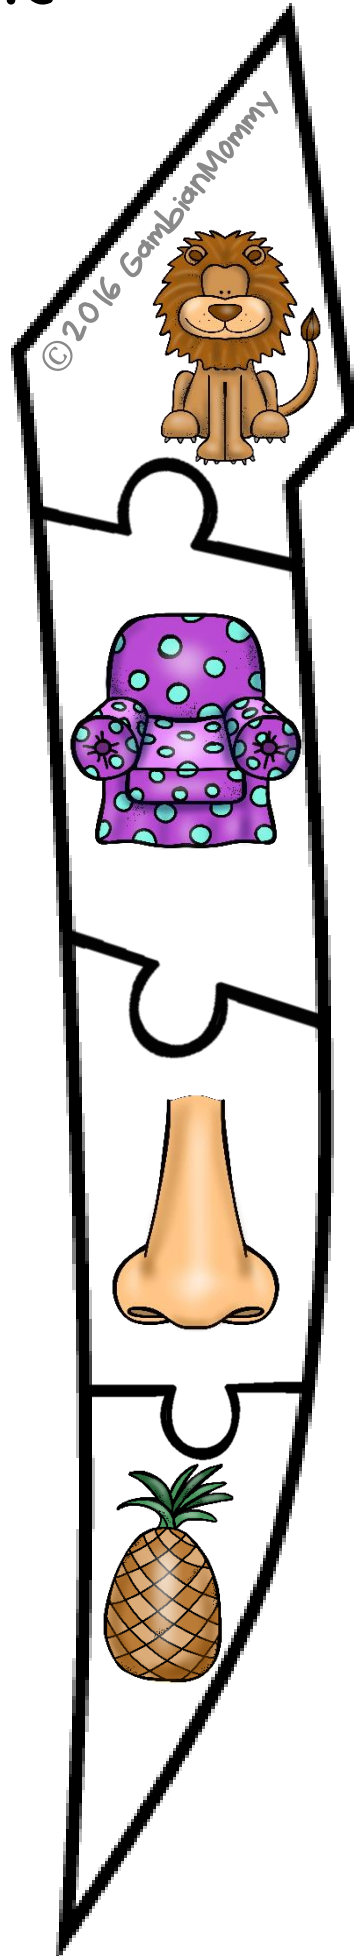

### How To Use:

1. To cut each letter, first print on cardstock for durability, using an exacto knife or similar knife, put the page on a hard surface and cut the pieces apart
2. Laminate the pieces then cut out the laminating plastic
3. Alternatively, you may glue the puzzle pieces onto cardboard to make real sturdy puzzle pieces without laminating
4. If your little learner finds putting the pieces by themselves challenging, you may choose to print a base letter mat and have them fix the puzzles on top of the letter
5. I have also included empty puzzle templates. Bind these into a booklet form and have your little learner glue the puzzle pieces on top to make for an interactive alphabet puzzle book
