H READING**Prince William of Britain**

Prince William is the grandson of Queen Elizabeth II of Britain. He was born in London, England, on June 21, 1982. He is the elder son of Charles and Diana, Prince and Princess of Wales. He has one younger brother named Harry.

William was educated at private schools in England. He attended one of the oldest high schools in England, Eton College. At Eton, he was captain of the football team and took up water polo. After graduation, William took a gap year, during which he trained with the British Army, traveled in Africa, and taught children in a small town in Chile.

He returned in 2001 and enrolled at one of the oldest universities in Scotland. He began studies in art history, but later changed his main subject to geography. William went on to earn a Master's degree—the best degree of any heir to the throne of Britain. He then decided to follow a military career and trained at the Royal Military Academy in 2006. He served in the Armed Forces with his brother, and two years later he earned his pilot wings. In 2009, he transferred to the Royal Air Force for helicopter training.

Prince William now serves as a co-pilot in the Search and Rescue Force. He also makes public appearances and performs his many royal duties—among which he is President of England's Football Association. And, like his mother, Lady Diana, he continues to help others by actively supporting many humanitarian causes.

G READING**GUIDE TO NIAGARA FALLS****Things to Do**

There is a lot for the whole family to do in Niagara Falls. A helicopter ride provides a wonderful view of both the American falls and the Canadian falls. During the ride, you can take great pictures to show your friends back home. A favorite with all the tourists is the Journey Behind the Falls. You'll put on a raincoat, take an elevator, and get out at the bottom of the falls. From there, you'll see, hear, and feel the excitement as the water crashes down from the height of a twenty-story building. It's an unforgettable experience!

**Places to Stay***The Broadview Hotel*

Many visitors want to stay at the Broadview. The rooms are small, but the views of the falls are wonderful. The hotel restaurant is good, but very fancy. You'll have to wear your best clothes. The Broadview is expensive, but its guests receive very special treatment. And for your information, the hotel doesn't have a pool, but it has excellent workout facilities for people who like to exercise.

Martin's Motel

Martin's Motel is a really friendly place. When you check in, Martin shows you to your room. The rooms aren't fancy, but they're large and they have cable TV. H READING

Since the 1700s, people have tried many different ways of traveling over land. They wanted to move more quickly and more comfortably than they could on horseback. Inventors have produced several different kinds of car engines since 1760. First, they tried steam engines. But they were noisy, and the driver had to stop frequently to get more water. Then they tried gasoline engines. The inventor of the modern gasoline-powered automobiles was a German named Karl Benz. He made his first car in 1886. His company later became Mercedes Benz, and it is still making cars today.

Automobile companies have added many improvements to cars over the years. Have you been in a car in rainy or snowy weather? Was it difficult to see the other cars on the road? A hundred years ago, it was almost impossible to drive in bad weather. People had to get out of their cars and wipe the windshields of their cars every few minutes. However, today, we have

windshield wipers. M. Anderson invented the windshield wiper in 1903, and by 1913 almost all American cars had them. And today you can't buy a car without them.

Another invention that has become very popular is the bucket seat. Steve McQueen, a famous American actor, invented this type of seat. McQueen worked on cars and was a race car driver. He needed a seat that was comfortable when his car was going very fast. Have you ever sat in a bucket seat? It's lower than a regular seat, and most people say it's more comfortable. Manufacturers have put bucket seats in cars for over thirty years now.

Auto manufacturers have improved cars. They've added things that make driving easier and more comfortable for drivers. Windshield wipers and bucket seats were only the beginning. Now many cars have GPS devices and even computers to help drivers park. Cars have come a long way in one hundred years!

Write **T** for **True** and **F** for **False**.

Small Town America

Do you know what the expression “small town America” means? Sometimes people use it to describe living in a small town in the U.S.A. There’s a big difference between the quality of life in a large city and in a small town. That’s true in any country.

Some people prefer to live in the city because there are a lot of people to meet, a lot of places to eat, and a lot of things to do. The pace of life is faster in a big city than it is in a small town. So for some people, the expression “small town” or “small town America” is another way to say that something is slow or even boring.

Officially a town has to have less than 10,000 residents to be considered a small town. In other words, a small town is even smaller than a small city. Many young people who grow up in small towns leave for life in the big city. But there are those who regret their move to the big city and want to move back to their small town life. Why? Many miss the community—the friendly neighbors, the close friends, and the looking out for the other person that are often characteristic of a vibrant small town.

The top ten best small towns in the U.S.A. are voted on annually. These are the towns that people miss when they move away. These are the towns that have citizens who are excited about living in their small town. Recently, Hammondsport, New York was voted the best small town in America.

Young people in small town America often do very different things for fun than their big city counterparts. Some of the exciting things young people in small town America do include riding ATVs (all terrain vehicles), riding horses, and even riding snowmobiles when it snows!

My Last Two Vacations

Last summer I went to Seattle with my family, and the summer before I went to Miami. Seattle is a busy city, but I didn't see much of it. I visited my cousins in one of the suburbs, and it rained every day. Then I went shopping with my family. Really, that was not a lot of fun. The summer before, I went to Miami on vacation. That was a more exciting vacation. The weather was better because it was sunny. We went to the beach every day, and I surfed and swam.
